💼 Portfolio Website

Education

Sir C R Reddy College of Engineering, JNTUK	**2019 - 2023**
Bachelor of Technology - Civil Engineering - 65%	Eluru, Andhra Pradesh
Sri Deepthi Junior College, Proddatur	**2017 - 2019**
Intermediate (Plus 2) in MPC - 86.73%	Proddatur, Andhra Pradesh
ZP High School, Mylavaram	**2016 - 2017**
High School(10th class) - 77.93%	Jammalamadugu, Andhra Pradesh

Work Experience

Numetry Technologies — **July 2024 - Nov 2024**

MERN Full Stack Developer

- Built and maintained web applications using MongoDB, Express.js, React.js, and Node.js.
- Implemented frontend and backend functionality, integrating RESTful APIs.
- Worked on user authentication, database management, and application optimization.

Codegnan Destination, Hyderabad — **Dec 2023 - June 2024**

Java Full Stack Developer

- Trained in full-stack web development using Java, Spring Boot, Hibernate, and MySQL for backend development.
- Developed responsive web applications with HTML, CSS, Bootstrap, JavaScript, and ReactJS for frontend functionality.
- Gained hands-on experience in building RESTful APIs, integrating databases, and managing user authentication.
- Focused on best practices in code optimization, testing, and version control (Git).

Projects

Employee Management System | GitHub Link | Java | JDBC | Servlets | JSP | JSTL |MySQL — **June 2024**

- Built a web-based system to manage employee records with features like registration, updates, and deletion.
- Used JDBC for database interaction, Servlets for business logic, and JSP with JSTL for dynamic content rendering and efficient data display.
- Implemented secure user authentication and data validation with MySQL backend.

Room Booking System | GitHub Link | Project Live Link | Reactjs | Bootstrap — **July 2024**

- Creating a Room Booking System using ReactJS involves building a web application where users can view available rooms, select rooms to book, and manage their bookings.

Note App | GitHub Link | Project Live Link | MongoDB | Expressjs | Reactjs | Nodejs | Bootstrap — **Aug 2024**

- Creating a note-making app using the MERN stack involves setting up both the frontend and backend to handle note creation, retrieval, updating, and deletion.
- Here's a detailed guide to building a simple note-making app with the MERN stack.

Chatting App | GitHub Link | Project Live Link | MongoDB | Expressjs | Reactjs | Nodejs | Bootstrap | Socket.io — **Aug 2024**

- Developed a real-time chat application with user authentication, private messaging, and chat rooms.
- Used React for the frontend, Node.js and Express for the backend, and MongoDB for data storage.
- Integrated Socket.io for real-time messaging and JWT for secure user sessions.

Technical Skills

Languages : HTML5, CSS, JavaScript, Basics of Java, OOPs Concept
Frameworks/Libraries : ReactJs, Bootstrap, Nodejs, ExpressJs
Databases : MySQL, MongoDB
Deployement : Vercel
Developer Tools : VS Code, Eclipse

Declaration

I hereby declare that the above information mentioned is correct up to my knowledge and I bear the responsibility for the correctness of the above mentioned particulars
